(B) EVALUATION CRITERIA SUBMISSION REQUIREMENTS -

1. TECHNICAL QUALITY –

a. Technical Quality information shall include submission of the salient characteristics of the proposed product to demonstrate the degree to which it can satisfy the government's requirement. Proposals shall be clear and concise, and shall include sufficient detail for effective evaluation and substantiation of stated claims. The proposal shall not simply affirm, rephrase, or restate the Government's requirements, but rather shall provide convincing rationale to address how the offeror's product meets the requirements. Offerors shall assume that the Government has no prior knowledge of their products, facilities, or experience, and will base its evaluation only on the information presented in the offeror's proposal. Elaborate brochures or documentation, detailed artwork, or other superfluous embellishments are unnecessary and are not desired. Offerors are advised that existing product literature may be submitted in lieu of unique technical proposals so long as it conforms to the requirements of the solicitation and contains adequate detail for purposes of

evaluation. The information provided shall comprehensively explain how offeror proposes to comply with the applicable requirements.

b. Technical proposals should include, at a minimum:

- i. Preliminary dimensional drawing(s) of flow meter configuration depicting size, type of fabrication, and support locations (if any).
 - ii. Adequate documentation and technical references to support proposed material selection and configuration. Supportive documentation shall address design temperature range, fabrication, cleaning, and post-delivery inspection.
 - iii. Preliminary calculations for thickness, preliminary thermal analysis of design temperature range, and calculations and/or cut sheets for any long delivery items. Results of all preliminary calculations shall be summarized.
 - iv. Identification of tests to be used to certify that proposed materials meet the requirements of the specifications and ensure ASME Code compliance.
 - v. Quality control manual(s) adequate to demonstrate that offeror has a quality management system in place sufficient to assure the end product provided meets the requirements of this procurement.
 - vi. Representative sample cleaning procedure adequate to demonstrate items will be cleaned to the required standard.
- h. Identification of all Manufacturers' ASME Certifications.

2. DELIVERY SCHEDULE - Delivery Schedule information shall include documentation that clearly demonstrates the offeror's ability to meet the Government's desired/required delivery schedule. Offeror shall provide a preliminary schedule depicting design, material procurement, fabrication, testing, cleaning, and delivery in calendar days or weeks ARO with final delivery of each item identified. Offerors are advised that proposals offering to meet or exceed the desired delivery schedule of this solicitation AND demonstrating the ability to do so will be given a higher rating under this evaluation factor.

3. PAST PERFORMANCE - At a minimum, Past Performance Information (PPI) provided shall include the name(s) and contact information for three (3) of the offeror's most recent (within three years from the offer due date listed on page 1 in Block 8 of the SF1449) and relevant (as outlined in the Federal Acquisition Regulation) references (whether federal, state, or local government or private industry) for the prime contractor, and, if applicable, significant subcontractors. Failure to provide adequate contact information shall result in the reference being given a "neutral" rating. PPI provided should include verifiable experience in designing and fabricating products comparable to that required by this solicitation. Specifically note pressure, volume, wall thickness, service media, analysis programs for design, and a contact for experience verification (name, telephone number, and address).

4. PRICE - This procurement is exempt from the requirements of submission or certification of cost or pricing data. However, offeror is to provide a general breakdown of pricing sufficient to determine price realism and reasonableness. Should significant subcontractors be involved, the pricing breakdown shall identify the pricing associated with each subcontractor. Breakout(s) should be submitted in an .xls compatible format. Offeror shall identify and document all (if any) assumptions, conditions, and/or exceptions upon which the price is based. Any assumptions, conditions, and/or exceptions considered by the Government to be unacceptable may result in elimination for an award.

(C) FORMAT -

1. In order for the Government to make an affirmative responsibility determination, offeror is to provide correspondence from its financial institution indicating offeror's financial capabilities.
2. Signed offer(s) may be submitted electronically via e-mail to carol.a.burnside@nasa.gov (cc: gerald.l.norris@nasa.gov) or via facsimile to (228) 688-6024, by the date specified on page 1 in Block 8 of the SF 1449.
3. All information and all copies of offer must be submitted no later than the date and time specified on Page 1 in Block 8 of the SF 1449. Proposals that arrive after the prescribed date and time specified for receipt of proposals will be considered late and treated in accordance with FAR 52.212-1(f)(2).

(D) VIETNAM ERA VETERANS' READJUSTMENT ACT OF 1972 (VEVRAA) -

1. Federal contracting agencies are prohibited from obligating or expending funds to enter into a contract covered by the VEVRAA with a contractor from which a VETS-100 or VETS-100A Report was required with respect to the previous fiscal year if such contractor did not submit such report (31 U.S.C. 1354). The VEVRAA regulations generally apply to Government contracts entered into on or after December 1, 2003 in the amount of \$100,000 or more; contracts are not aggregated to reach the coverage threshold. Frequently Asked Questions (FAQs) regarding this topic may be found at <http://www.dol.gov/vets/vets-100.html>.
2. Contractors subject to reporting shall submit as verification of reporting compliance a copy of the confirmation notification received upon the successful submission of its VETS-100 and/or VETS-100A report(s).

(E) QUESTIONS - Questions regarding the solicitation and/or specifications are encouraged to ensure adequate understanding of the government's requirement. All offeror questions regarding subject solicitation must be submitted no later than 3pm in the afternoon local time (Central) on **May 13, 2013**. Questions submitted after this date/time will not be accepted. Questions will be accepted via e-mail only to: carol.a.burnside@nasa.gov (cc: gerald.l.norris@nasa.gov). Faxed or telephoned questions will not be accepted. In no event shall an offeror's failure to clarify the requirements of the solicitation constitute grounds for a protest before or after award or a claim after contract award.

(F) SMALL BUSINESS REQUIREMENTS - Offerors shall address the nonmanufacturer and ostensible relationship rules in their proposal and demonstrate compliance with the performance requirements therein.

(G) PROPOSAL COSTS - The Government will not pay any offeror for preparation of their proposal.

(H) TECHNICAL EVALUATION CONTRACTOR SUPPORT -

1. Offerors are hereby informed that a John C. Stennis Space Center (SSC) onsite Contractor will be providing technical assistance to the NASA proposal evaluation team, and, as such, will require access to offeror's proposal. The SSC Contractor will not be evaluating proposals, but will play an integral supporting role in the technical evaluation by providing technical input to be used by the NASA evaluation team. The final technical evaluation results shall be the responsibility of the NASA Technical Evaluation Team.
2. By submitting a proposal in response to this solicitation, offeror is acknowledging awareness of this fact. Offeror further acknowledges approval and acceptance of the technical assistance approach identified above and agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement.

3. Submission of an offer in response to this Request for Proposal (RFP) provides consent for the Government to utilize the proposal in accordance with the technical evaluation procedures identified in paragraph B above.

52.212-2 EVALUATION - COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer, conforming to the solicitation, will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: Technical Quality, Delivery Schedule, Past Performance, and Price. See the Addendum to this clause for specific evaluation procedures.

(b) Options. N/A

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

The following **ADDENDUM TO FAR 52.212-2** is incorporated:

(A) COMPETITIVE NEGOTIATED PROCUREMENT USING QUALITATIVE CRITERIA

This procurement is being conducted utilizing Best Value Selection (BVS), which seeks to make an award based on the best combination of price and qualitative merit (*e.g.* Technical Compliance, Past Performance, Schedule, and/or Price) of the proposals submitted and reduce the administrative burden on Offerors and the Government. BVS predefines the value characteristics which will serve as discriminators among proposals. BVS evaluation is based on the premise that, if all proposals are of approximately equal qualitative merit, award will be made to the Offeror with the lowest evaluated price (fixed-price contracts) or the lowest most probable cost (cost type contracts). However, the Government may consider awarding to an Offeror with higher qualitative merit if the difference in price is commensurate with added value. Conversely, the Government may consider making award to an Offeror whose quote has lower qualitative merit if the price (or cost) differential between it and other offers warrants doing so.

(B) EVALUATION CRITERIA

a. The award will be made where the offeror is determined to be responsible, and the proposal is responsive and offers the best value to the government. Best value will be determined based on an integrated assessment of each proposal in terms of Technical Quality, Delivery Schedule, Past Performance, and Price. Therefore, subjective judgment by the government is implicit in the evaluation process. Technical Quality and Delivery Schedule are of equal importance and, when combined, are significantly more important than Price or Past Performance. If offeror does not have relevant past performance history, the offeror may not be evaluated favorably or unfavorably on past performance and will be given a neutral rating as detailed in this plan. In addition, award may be made without conducting discussions.

b. Once all responses have been gathered, proposals will be qualitatively evaluated by team members using the below value characteristics. These value characteristics are performance-based and permit evaluation of the proposal, which provides better results for a reasonable marginal increase in price. All proposals will be judged against these value characteristics.

(C) EVALUATION PROCESS

The Government will evaluate proposals in two general steps:

Step One -- An initial evaluation will be performed to determine if all required information has been provided and the Offeror has presented a responsive proposal. Offeror may be contacted only for clarification purposes during the initial evaluation. Should a proposal be determined nonresponsive, the offeror shall be notified that their proposal has been rejected and the reasons therefore, and the proposal shall be excluded from further consideration.

Otherwise responsive proposals containing a significant variance in price from the government's estimate may be immediately removed from further consideration if there is no expectation that an award can be made at a fair and reasonable price, as it would be detrimental to the public interest to pay more than fair market price.

Step Two -- All responsive proposals will be evaluated against the specifications/statement of work and the value characteristics identified herein. Based on this evaluation, the Government has the option, depending on the specific circumstances of the proposals received, to utilize one of the following methods: (1) Make selection and award without discussions, (**preferred method**); or (2) after establishment of the competitive range, hold discussions with all finalists and afford each Offeror an opportunity to revise its proposal, and then make selection based upon an evaluation of the revised proposals.

Offerors are cautioned that omissions or an inaccurate or inadequate response to these evaluation factors may have a negative effect on your overall evaluation.

References other than those provided by the offeror may be contacted and their comments considered during the evaluation process. The information submitted may be verified by the Government through discussions with the references provided. While the Government may elect to consider data obtained from other sources, the burden of providing relevant references that the Government can readily contact rests with the Offeror.

(D) VALUE CHARACTERISTICS

Listed below are the value characteristics that will be utilized in the evaluation of each proposal. Each value characteristic is further defined to explain the rating that each offeror will receive. Documentation insufficient to make a definitive determination regarding these characteristics may negatively impact the score received.

a) **Technical Quality** - The government will evaluate the information provided by the offeror in response to this solicitation as well as to what extent proposal is in compliance with required Statement of Work and Specification and how closely the proposed product meets the Government's requirements. The proposed product must be deemed technically satisfactory or better to be considered for award. Each offeror's proposed product's capabilities will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Outstanding	Substantially exceeds requirements	Offeror proposed a superior product to meet the requirements of the solicitation with specific, detailed, complete, and clear logic that fully demonstrates an in-depth understanding of the requirements. The information provided was comprehensive and clearly explains how offeror's product and cleaning procedures significantly exceeds compliance with the Statement of Work and Specification.
Above Average	Somewhat exceeds requirements	Offeror proposed a good product to meet the requirements of the solicitation with complete and clear logic, which demonstrates a complete understanding of the requirements. The information provided was detailed and fully explains how offeror's product and cleaning procedures exceed compliance with the Statement of Work and Specification.

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Satisfactory	Meets requirements	Offeror proposed an acceptable product to meet the requirements of the solicitation with reasonable detail, which demonstrates offeror possesses an understanding of the requirements. The information provided was sufficient to explain how offeror's product and cleaning procedures comply with the Statement of Work and Specification.
Marginal	Barely meets requirements	Offeror proposed an inferior product to meet the requirements of the solicitation, which demonstrates offeror has limited understanding of the requirements. The information provided indicated that the offeror's product and cleaning procedures barely comply with the Statement of Work and Specification.
Unsatisfactory	Does not meet requirements	Offeror failed to propose an acceptable product to meet the requirements of the solicitation, which demonstrates offeror has very limited understanding of the requirements. The information provided indicated that the offeror's product and cleaning procedures fail to comply with the Statement of Work and Specification.

b) Delivery Schedule - The government will evaluate to what extent the offeror's proposed schedule meets the government's needs as specified in the solicitation as well as the reasonableness of the schedule proposed and the relative capability of the offeror to effectively meet the proposed schedule. The proposed schedule must be deemed satisfactory or better to be considered for award. Each offeror's proposed Delivery Schedule will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Outstanding	Substantially exceeds requirements	Offeror's proposed delivery schedule substantially exceeds the Government's required delivery schedule per FAR 52.211-9. The proposal includes specific, detailed, complete, and clear logic that clearly demonstrates the offeror's ability to significantly exceed the proposed schedule.
Above Average	Somewhat exceeds requirements	Offeror's proposed delivery schedule somewhat exceeds the Government's required delivery schedule per FAR 52.211-9. The proposal includes complete and clear logic that demonstrates the offeror's ability to exceed the proposed schedule.
Satisfactory	Meets requirements	Offeror's proposed delivery schedule meets the Government's required delivery schedule per FAR 52.211-9. The proposal includes reasonable detail that was sufficient to demonstrate the offeror's ability to meet the proposed schedule.
Marginal	Barely meets requirements	Offeror's proposed delivery schedule barely meets the Government's required delivery schedule per FAR 52.211-9. The proposal did not include detail adequate to demonstrate the offeror could meet the proposed schedule.
Unsatisfactory	Does not meet requirements	Offeror's proposed delivery fails to meet the Government's required delivery schedule per FAR 52.211-9. The proposal indicated that the offeror could not meet the proposed schedule.

c) Past Performance - The government will evaluate past and present performance, giving consideration to the relevance of the work performed and the quality of performance indicated, to assess the relative capability of the offeror to effectively accomplish the requirements of this contract. For newly formed businesses having little or no company experience, the past performance of a predecessor firm, the company's principal owner(s) or corporate officer(s) may be considered. The lack of a performance record

may result in an unknown performance risk assessment which will neither be used to the advantage or disadvantage of the Offeror. Each offeror's past performance will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Very High Level of Confidence	One or more significant strengths exist. No significant weaknesses exist.	The offeror's relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary product performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall product performance. Based on the offeror's products' performance record, there is a very high level of confidence that the offeror's proposed product will successfully meet the required standards.
High Level of Confidence	One or more significant strengths exist. Strengths outbalance any weakness.	The offeror's relevant past performance is highly pertinent to this acquisition; demonstrating very effective product performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall product performance. Based on the offeror's products' performance record, there is a high level of confidence that the offeror's proposed product will successfully meet the required standards.
Moderate Level of Confidence	There may be strengths or weaknesses or both.	The offeror's relevant past performance is pertinent to this acquisition, and it demonstrates effective product performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall product performance. Based on the offeror's products' performance record, there is a moderate level of confidence that the offeror's proposed product will successfully meet the required standards.
Neutral	No record exists or the contractor has no past performance to report.	
Low Level of Confidence	One or more weaknesses exist. Weaknesses outbalance strengths.	The offeror's relevant past performance is at least somewhat pertinent to this acquisition, and its products meet or slightly exceed minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall product performance. Based on the offeror's products' performance record, there is a low level of confidence that the offeror's proposed product will successfully meet the required standards. Changes to the offeror's existing processes may be necessary in order to achieve contract requirements.
Very Low Level of Confidence	One or more deficiencies or significant weaknesses exist.	The offeror's relevant past performance does not meet minimum acceptable standards in one or more product performance areas; remedial action required in one or more product performance areas; problems in one or more product performance areas which adversely affect overall product performance. Based on the offeror's products' performance record, there is a very low level of confidence that the offeror's proposed product will successfully meet the required standards.

d) Price - The government will evaluate offeror's proposed price for reasonableness and realism in accordance with FAR 13.106-3 and for determining best value to the Government. Price will be evaluated via price analysis. The analytical techniques and procedures described in FAR 13.106-3 may be used, singly or in combination with others, to ensure the final price is fair and reasonable. Pricing must be deemed fair and reasonable to be considered for award.

(1) ☐ **Are**, ☐ **are not** presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ **Have**, ☐ **have not**, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(4) ☐ **Have**, ☐ **have not**, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
